REMARKS

Pending claims 2-26 were allowed in the parent application in a Notice of Allowance mailed on June 14, 2005. Claims 1 and 28-34 are cancelled from the application. Claim 10 is amended to correct an obvious typographical error and this amendment introduces no new matter.

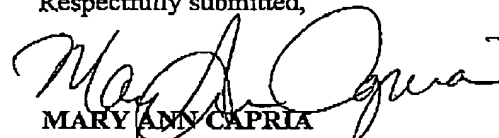

With respect to pending Claim 27, it is respectfully requested that it be reinstated and be allowed to issue with Claims 2-26 since it is directed to a device that depends on Claim 2 and does not introduce any new matters of examination.

The amendment to the specification inserts language to note that the above referenced pending patent application has a priority based on United States provisional application number 60/408,777, filed on September 6, 2002. No new matter is introduced.

Conclusion

In view of the foregoing, allowance of the above-referenced application and pending Claims 2-27 is respectfully requested.

Respectfully submitted,
